

Homework 3

CS 4390/5390
Fall 2019

Due: 23 October 2019

This homework is an opportunity to retry any questions missed on the midterm. 50% of the difference in score on each question will be added to your final grade. Note that midterm exam grading and the solution key will not be released until after this assignment is due, it is up to you to determine any incorrect answers. You may discuss the questions and high-level ideas with the instructor and class-mates as you would any other homework, but exact solutions should not be shared.

Full 5 homework points will be given for turning in the homework on time (this includes turning in a blank paper with your name on it if you do not wish to redo any questions from the midterm). Late assignments will receive a 10% per day penalty on both the homework grade and any re-gained midterm points.
